

"Losing" Perspective

THE ACT OF LOSING PERSPECTIVE. • A PERSPECTIVE THAT IS LOSING.

*For every **Olympian** that does not place well,
there is an IFBB Pro saying "at least you made it to Olympia".*

*For every **IFBB Pro** that does not place well at a pro show,
there is a National Competitor, saying, "at least you have your Pro Card".*

*For every **National Competitor** that does not get their IFBB Pro Card,
there is an NPC Competitor that is saying "at least you qualified for nationals".*

*For every **NPC Competitor** that does not qualify for nationals,
there is a friend, coworker, family, member, saying "at least you look like a god/goddess".*

*For every **Athlete** that shows up at the gym and is discouraged
and struggling to find the courage to walk across that stage,
there is a bedridden person that is shaking their head
and wishing that they had your potential.*
